SPONSORSHIP OPPORTUNITIES

IS YOUR TEAM UP FOR THE CHALLENGE?

Design & Build provides a way for Northeast Ohio youth and corporate teams to collaborate and compete in a fun, creative environment while supporting the Science Center's mission!

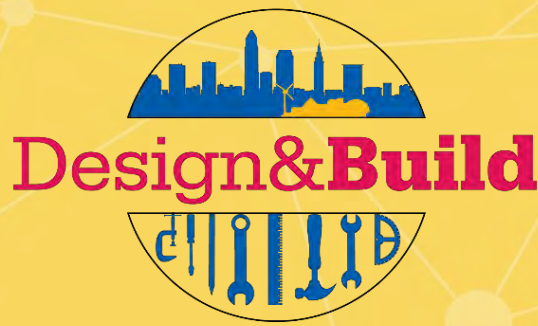

On the day of **Design & Build**, each team is given a design challenge and all materials needed to compete. Teams race against the clock – and against the other teams – to see who can design, build, and test to find the most successful solution to the challenge.

Design & Build allows the community to engineer victory and construct a brighter future fueled by STEM learning. Your organization and employees can directly impact the next generation of engineers, researchers, and astronauts!
